NAIC Buyer's Guide for Fixed Deferred Annuities

It's important that you understand how annuities can be different from each other so you can choose the type of annuity that's best for you. The purpose of this Buyer's Guide is to help you do that. This Buyer's Guide isn't meant to offer legal, financial, or tax advice. You may want to consult independent advisors that specialize in these areas.

This Buyer's Guide is about fixed deferred annuities in general and some of their most common features. It's not about any particular annuity product. The annuity you select may have unique features this Guide doesn't describe. It's important for you to carefully read the material you're given or ask your annuity salesperson, especially if you're interested in a particular annuity or specific annuity features.

This Buyer's Guide includes questions you should ask the insurance company or the annuity salesperson (the agent, producer, broker, or advisor). Be sure you're satisfied with the answers before you buy an annuity.

WHAT IS AN ANNUITY?

An annuity is a contract with an insurance company. All annuities have one feature in common, and it makes annuities different from other financial products. **With an annuity, the insurance company promises to pay you income on a regular basis for a period of time you choose** - including the rest of your life.

When Annuities Start to Make Income Payments

Some annuities begin paying income to you soon after you buy it (an **immediate** annuity). Others begin some later date you choose (a **deferred** annuity).

How Deferred Annuities Are Alike

There are ways that *most* deferred annuities are alike:

- They have an **accumulation** period and a **payout** period. During the accumulation period, the value of your annuity changes based on the type of annuity. During the payout period the annuity makes income payments to you.
- They offer a basic death benefit. If you die during the accumulation period, a deferred annuity with a basic death benefit pays some or all of the annuity's value to your survivors (called beneficiaries) either in one payment or multiple payments over time. The amount is usually the greater of the annuity account value or the minimum guaranteed surrender value. If you die after you begin to receive income payments (**annuitize**), your chosen survivors may not receive anything *unless*: 1) your annuity guarantees to pay out at least as much as you paid into the annuity, or 2) you chose a payout option that continues to make payments after your death. For an extra cost you may be able to choose enhanced benefits that increase the value of the basic death benefit.

SOURCES OF INFORMATION

Contract: *The legal document between you and the insurance company that binds both of you to terms of the agreement.*

Disclosure: *A document that describes the key features of your annuity, including what is guaranteed and what isn't, and your annuity's fees and charges. If you buy a variable annuity, you'll receive a prospectus that includes detailed information about investment objectives, risks, charges, and expenses.*

Illustration: *A personalized document that shows how you annuity features might work. Ask what is guaranteed and what isn't and what assumptions were made to create the illustration.*

- You usually have to pay a charge (called a **surrender** or **withdrawal charge**) if you take some or all of your money out too early (usually before a set time period ends). Some annuities may not charge if you withdraw small amounts (for example, 10% or less of the account value) each year.
- Any money your annuity earns is **tax deferred**. That means you won't pay income tax on earnings until you take them out of the annuity.
- You can add features (called **riders**) to many annuities, usually at an extra cost.
- An annuity salesperson must be licensed by your state insurance department. A person selling a variable annuity also must be registered with FINRA¹ as a representative of a broker/dealer that's a FINRA member. In some states, the state securities department also must license a person selling a variable annuity.

- Insurance companies sell annuities. You want to buy from an insurance company that's financially sound. There are various ways you can research an insurance company's financial strength. You can visit the insurance company's website or ask your annuity salesperson for more information. You also can review an insurance company's rating from an independent rating agency. Four main firms currently rate insurance companies. They are A.M. Best Company, Standard and Poor's Corporation, Moody's Investors Service, and Fitch Ratings. Your insurance department may have more information about insurance companies. An easy way to find contact information for your insurance department is to visit www.naic.org and click on "**States and Jurisdictions Map**".
- Insurance companies usually pay the annuity salesperson after the sale, but the payment doesn't reduce the amount you pay into the annuity. You can ask your salesperson how they earn money from the sale.

How Deferred Annuities Are Different

There are differences among deferred annuities. Some of the differences are:

- Whether you pay for the annuity with one or more than one payment (called a **premium**).
- The types and amounts of the **fees, charges, and adjustments**. While almost all annuities have *some* fees and charges that could reduce your account value, the types, and amounts can be different among annuities. **Read the Fees, Charges, and Adjustments section in the Buyer's Guide for more information.**

- Whether the annuity is **fixed** annuity or **variable** annuity. How the value of an annuity changes is different depending on whether the annuity is fixed or variable.

Fixed annuities guarantee your money will earn at least a minimum interest rate. Fixed annuities may earn interest at a rate higher than the minimum but only the minimum rate is guaranteed. The insurance company sets the rates.

Fixed indexed annuities are a type of fixed annuity that earns interest based on changes in a market index, which measures how the market or part of the market performs. The interest rate is guaranteed to never be less than zero, even if the market goes down.

Variable annuities earn investment returns based on the performance of the investment portfolios, known as “subaccounts”, where you choose to put your money. The return earned in a variable annuity isn't guaranteed. The value of the subaccounts you choose could go up or down. If they go up, you could make money. But, if the value of these subaccounts goes down, you could lose money. Also, income payments to you could be less than you expected.

- Some annuities offer a **premium bonus**, which usually is a lump sum amount the insurance company adds to your annuity when you buy it or when you add money. It's usually a set percentage of the amount you put into the annuity. Other annuities offer an **interest bonus**, which is an amount the insurance company adds to your annuity when you earn interest. It's usually a set percentage of the interest earned. You may not be able to withdraw some or all of your premium bonus for a set period of time. *Also, you could lose the bonus if you take some or all of the money of your annuity within a set period of time.*

HOW DOES THE VALUE OF A DEFERRED ANNUITY CHANGE?

Fixed Annuities

Money in a fixed deferred annuity earns interest at a rate the insurer sets. The rate is **fixed** (won't change) for some period, usually a year. After that rate period ends, the insurance company will set another fixed interest rate for the next rate period. *That rate could be higher or lower than the earlier rates.*

Fixed deferred annuities *do* have a guaranteed minimum interest rate – the lowest rate the annuity can earn. It's stated in your contract and disclosure and can't change as long as you own the annuity. Ask about:

- The *initial interest rate* – What is the rate? How long until it will change?
- The *renewal interest rate* – When will it be announced? How will the insurance company tell you what the new rate will be?

Fixed Indexed Annuities

Money in a fixed indexed annuity earns interest based on changes in an index. Some indexes are measures of how the overall financial markets perform (such as the S&P 500 Index or Dow Jones Industrial Average) during a set period of time (called the **index term**). Others measure how a specific financial market performs (such as the Nasdaq) during the term. The insurance company uses a formula to determine how a change in the index affects the amount of interest to add to your annuity at the *end of each index term*. Once interest is added to your annuity for an index term, those earnings usually are locked in and changes in the index in the next index term don't affect them. If you take money from an indexed annuity before an index term ends, *the annuity may not add all of the index-linked interest for that term to your contact.*

Insurance companies use different formulas to calculate the interest to add to your annuity. They look at changes in the index over a period of time. See the box “**Fixed Deferred Indexed Formulas**” that describes how changes in an index are used to calculate interest.

The formulas insurance companies use often mean that interest added to your annuity is based on only *part* of a change in an index over a set period of time. **Participation rates, cap rates, and spread rates** (sometimes called margin or asset fees) all are terms that describe ways the amount of interest added to your annuity may not reflect the full change in the index. *But if the index goes down over that period, zero interest is added to your annuity.* Then your annuity value won't go down as long as you don't withdraw the money.

When you buy an index annuity, you aren't investing directly in the market or the index. Some indexed annuities offer you more than one index choice. Many indexed annuities also offer the choice to put part of your money in a fixed interest rate account, with a rate that won't change for a set period

FIXED DEFERRED INDEXED FORMULAS

Annual Point-to-Point – *Change in index calculated using two dates one year apart.*

Multi-Year Point-to-Point – *Change in index calculated using two dates more than one year apart.*

Monthly or Daily Averaging – *Change in index calculated using multiple dates (one day of every month for monthly averaging, every day the market is open for daily averaging). The average of these values is compared with the index value at the start of the term.*

Monthly Point-to-Point – *Change in index calculated for each month during the index term. Each monthly change is limited to the “cap rate” for positive changes, but not when the change is negative. At the end of the index term, all monthly changes (positive and negative) are added. If the result is positive, interest is added to the annuity. If the result is negative or zero, no interest (0%) is added.*

WHAT OTHER INFORMATION SHOULD YOU CONSIDER?

Fees, Charges, and Adjustments

Fees and charges reduce the value of your annuity. They help cover the insurer's cost to sell and manage the annuity and pay benefits. The insurer may subtract these costs directly from your annuity's value. Most annuities have fees and charges but they can be different for different annuities. Read the contract and disclosure or prospectus carefully and ask the annuity salesperson to describe these costs.

A **surrender** or **withdrawal charge** is a charge if you take part or all of the money out of your annuity during a set period of time. The charge is a percentage of the amount you take out of the annuity. The percentage usually goes down each year until the surrender charge period ends. Look at the contract and the disclosure or prospectus for details about the charge. Also look for any waivers for events (such as death) or the right to take out a small amount (usually up to 10%) each year without paying the charge. If you take all of your money out of an annuity, you've surrendered it and no longer have any right to future income payments.

HOW INSURERS DETERMINE INDEXED INTEREST

Participation Rate – *Determines how much of the increase in the index is used to calculate index-linked interest. A participation rate usually is for a set period. The period can be from one year to the entire term. Some companies guarantee the rate can never be lower (higher) than a set minimum (maximum). Participation rates are often less than 100%, particularly when there's no cap rate.*

Cap Rate – *Typically, the maximum rate of interest the annuity will earn during the index term. Some annuities guarantee that the cap rate will never be lower (higher) than a set minimum (maximum). Companies often use a cap rate, especially if the participation rate is 100%.*

Spread Rate – *A set percentage the insurer subtracts from any change in the index. Also called a "margin or asset fee". Companies may use this instead of or in addition to a participation or cap rate.*

Some annuities have a **Market Value Adjustment (MVA)**. An MVA could increase or decrease your annuity's account value, cash surrender value, and/or death benefit value if you withdraw money from your account. In general, if interest rates are *lower* when you withdraw money than they were when you brought the annuity, the MVA could *increase* the amount you could take from your annuity. In general, if interest rates are *higher* when you withdraw money than they were when you brought the annuity, the MVA could *reduce* the amount you could take from your annuity. Every MVA calculation is different. Check your contract and disclosure or prospectus for detail

How Annuities Make Payments

Annuitize

At some future time, you can choose to **annuitize** your annuity and start to receive guaranteed fixed income payments for life or a period of time you choose. After payments begin, you can't take any other money out of the annuity. You also usually can't change the amount of your payments. For more information, see "**Payout Options**" in this Buyer's Guide. If you die before the payment period ends, your survivors may not receive any payments, depending on the payment option you choose.

Full Withdrawal

You can withdraw the cash surrender value of the annuity in a lump sum payment and end your annuity. *You'll likely pay a charge to do this if it's during the surrender charge period.* If you withdraw your annuity's cash surrender value, your annuity is cancelled. Once that happens, you can't start or continue to receive regular income payments from the annuity

Partial Withdrawal

You may be able to withdraw *some* of the money from the annuity's cash surrender value without ending the annuity. Most annuities with surrender charges let you take out a certain amount (usually up to 10%) each year without paying surrender charges on that amount. Check your contract and disclosure or prospectus. Ask your annuity salesperson about other ways you can take money from the annuity without paying charges.

Living Benefits for Fixed Annuities

Some fixed annuities, especially fixed indexed annuities, offer a **guaranteed living benefits** rider, usually at an extra cost. A common type is called a guaranteed lifetime withdrawal benefit that guarantees to make income payments you can't outlive. While you get payments, the money still in your annuity continues to earn interest. You can choose to stop and restart the payments or you might be able to take extra money from your annuity. Even if the payments reduce the annuity's value to zero at some point, you'll continue to get payments for the rest of your life. If you die while receiving payments, your survivors may get some or all of the money left in your annuity.

How Annuities Are Taxed

Ask a tax professional about your individual situation. The information below is general and should not be considered tax advice.

Current federal law gives annuities special tax treatment. Income tax on annuities is deferred. That means you aren't taxed on any interest or investment returns while your money is in the annuity. This isn't the same as tax-free. You'll pay ordinary income tax when you take a withdrawal, receive an income stream, or receive each annuity payment. When you die, your survivors will typically owe income tax on any other death benefit they receive from an annuity.

There are other ways to save that tax advantages, including Individual Retirement Accounts (IRAs). You can buy an annuity to fund an IRA, **but you also can fund your IRA other ways and get the same tax advantages.** When you take a withdrawal or receive payments, you'll pay ordinary income tax on all of the money you receive (not just the interest or the investment return). You also may have to pay a 10% tax penalty if you withdraw money before you're age 59½.

ANNUITY FEES AND CHARGES

Contract fee – A flat dollar amount or percentage charged once or annually.

Percentage of purchase payment – A front-end sales load or other charge deducted from each premium paid. The percentage may vary over time.

Premium tax – A tax some states charge on annuities. The insurer may subtract the amount of tax when you pay your premium, when you withdraw your contract value, when you start to receive income payments, or when it pays a death benefit to a beneficiary.

Transaction fee – A charge for certain transactions, such as transfers or withdrawals.

PAYOUT OPTIONS

You'll have a choice about how to receive income payments.

These choices usually include:

- For your lifetime
 - For the longer of your lifetime or your spouse's lifetime
 - For a set time period
 - For the longer of your lifetime or a set time period

Finding an Annuity That's Right for You

An annuity salesperson who suggests an annuity must choose one that they think is right for you, based on information from you. They need complete information about your life and financial situation to make a suitable recommendation. Expect a salesperson to ask about your age; financial situation (assets, debts, income, tax status, how you plan to pay for the annuity); your tolerance for risk; your financial objectives and experience; your family circumstances; and how you plan to use the annuity. If you aren't comfortable with the annuity, ask your salesperson to explain why they recommend it. Don't buy an annuity you don't understand or that doesn't seem right for you.

Within each annuity, the insurer *may* guarantee some values but not others. Some guarantees may be only for a year or less while others could be longer. Ask about risks and decide if you accept them. For example, it's possible you won't get all of your money back or the return on your annuity may be lower than you expected. It's also possible you won't be able to withdraw money you need from your annuity without paying fees or the annuity payments may not be as much as you need to reach your goals. These risks vary with the type of annuity you buy. All product guarantees depend on the insurance company's financial strength and claims-paying ability.

Questions You Should Ask

- Do I understand the risks of an annuity? Am I comfortable with them?
- How will this annuity help me meet my overall financial objectives and time horizon?
- Will I use the annuity for a long-term goal such as retirement? If so, how could I achieve that goal if the income isn't as much as I expected it to be?
- What features and benefits in the annuity, other than tax deferral, make it appropriate for me?
- Does my annuity offer a guaranteed minimum interest rate? If so, what is it?
- If the annuity includes rider, do I understand how they work?
- Am I taking full advantage of all of my other tax-deferred opportunities, such as 401(k)s, 403(b)s, and IRAs?
- Do I understand all of the annuity's fees, charges, and adjustments?
- Is there a limit on how much I can take out of my annuity each year without paying a surrender charge? Is there a limit on the *total* amount I can withdraw during the surrender charge period?
- Do I intend to keep my money in the annuity long enough to avoid paying any surrender charges?
- Have I consulted a tax advisor and/or considered how buying an annuity will affect my tax liability?
- How do I make sure my chosen survivors (beneficiaries) will receive any payments from my annuity if I die?

If you don't know the answers or have other questions, ask your annuity salesperson for help.

When You Receive Your Annuity Contract

When you receive your annuity contract, carefully review it. Be sure it matches your understanding. Also, read the disclosure or prospectus and other materials from the insurance company. Ask your annuity salesperson to explain anything you don't understand. In many states, a law gives you a set number of days (usually 10 to 30 days) to change your mind about buying an annuity after you receive it. This often is called a **free look** or **right to return** period. Your contract and disclosure or prospectus should prominently state your free look period. If you decide during that time period that you don't want the annuity, you can contact the insurance company and return the contract. Depending on the state, you'll either get back all of the money or you current account value.

Producer's Guide to Suitability

For Fixed and Fixed Index Annuities

Summary

Why is the suitability analysis important?

State regulations, and your obligations to your client, require that you gather enough information to make a recommendation of a product that is suitable. Collecting information from your client involves understanding their lifestyle, recent or upcoming life events, financial experience, income needs, risk tolerance, time horizon, and availability of funds for emergencies. This information will assist you in completing the suitability analysis and ultimately help you and your client determine if this annuity is the right one for them.

What is suitability all about?

Suitability means that your client buys this annuity for all the right reasons, with a complete understanding of how it works – the benefits as well as any conditions, limitations and/or restrictions. Suitability requires your professional analysis and judgment based on the specific needs and circumstances of your client.

What types of records are you required to keep?

The Delaware Life *Suitability Questionnaire* was designed to help capture your suitability analysis. When making your recommendation, all of the information you collect on these forms will provide a detailed summary as to why the annuity was determined to be suitable. In addition, you should keep notes of all conversations, information discussed and presented, and every item you considered during your analysis. All materials used during your review are required to be maintained as part of your customer file and you may be asked to provide this documentation to Delaware Life. State regulations require producers to retain written documentation for each customer for each recommended transaction. Please refer to the recordkeeping rules in your jurisdiction to learn how long you must retain documentation.

What are your responsibilities?

You are responsible for having reasonable grounds for believing that this annuity is suitable for your client. To do that, you must:

- Make every effort to obtain your client's suitability information
- Have adequate knowledge of the Delaware Life annuity product you are recommending

- Assess the various features of the annuity against your client's suitability information to make your recommendation
- Record all information you collect and keep copies of everything you present
- Cooperate with our efforts to review your recommendations, including providing follow-up information as we may require in any review of your transactions

What are Delaware Life's responsibilities?

Delaware Life is responsible for ensuring your compliance with state insurance suitability requirements. This means that we will not issue an annuity unless there is a reasonable basis for believing the annuity is suitable based on your client's circumstances. In addition, we must:

- Inform you of your responsibilities, which is the purpose of this Guide
- Provide training materials, including Product Specific Training, which explain the material features of our annuity products
- Maintain a procedure for reviewing the suitability information for each of your recommendations
- Maintain reasonable procedures to detect recommendations that are not suitable

What happens if your client chooses to "opt-out" of providing the information Delaware Life requires?

If an applicant chooses not to provide the required information, we will be unable to issue an annuity contract. We do not allow applicants to opt-out of completing the entire Delaware Life *Suitability Questionnaire*. The suitability disclosure details are necessary to understand both your recommendations and your client's need for a specific annuity product. Completed forms clearly document the discussion you had with your client and helps demonstrate their understanding.

If privacy is a concern, please assure your client that we protect all personal information and restrict access to personal information by maintaining physical, electronic, and procedural safeguards. We allow access only to persons who must use the information to provide insurance products and services.

What information must be obtained?

Before you make a recommendation to your client, you must understand their circumstances. To do that, you must obtain information from your client to aid you in assessing their financial needs and objectives, as well as their reasons for purchasing the annuity. At a minimum, the following must be collected and recorded:

- Age
- Annual income
- Existing assets, including investment, annuity, and life insurance holdings,
- Financial experience
- Financial objectives
- Financial situation and needs, including the financial resources used for the funding of this annuity
- Financial time horizon
- Intended use of the annuity
- Liquid net worth
- Liquidity needs
- Risk tolerance
- Tax status

How can you determine if an annuity is suitable?

In addition to collecting and understanding your client's suitability information, you must have a general understanding of annuities and have knowledge of the annuity you are considering for recommendation. Product knowledge is necessary for you to assess the features of the annuity, which include the conditions, limitations, and restrictions on the annuity benefits.

When making the suitability determination, using your professional analysis and judgment, your understanding of your client's suitability information, and the annuity being considered, assess whether:

- The annuity meets your client's insurance needs as well as their financial needs and objectives at the time of review
- The annuity offers substantial benefits
- Your client will be able to satisfy the conditions, limitations, or restrictions required to receive the benefits of the annuity

Generally, an annuity is suitable for applicants who:

- Understand that annuities are designed to meet long-term retirement needs
- Have no immediate need for liquidity from the annuity and expect to hold the annuity for at least the length of the surrender charge period
- Have sufficient funds and assets available to cover living expenses, emergencies, and changes in income, liquid assets and health care needs

When might an annuity not be suitable?

Examples of situations not considered suitable:

- A surrender charge schedule that exceeds the applicant's life expectancy
- An annuity purchase that ties up too much of an applicant's liquid assets
- An annuity purchased with proceeds from a reverse mortgage or home equity loan
- Lack of understanding by the applicant of all benefits, features and limitations of the annuity
- Replacement where both products have the same features and benefits
- Replacement where the surrender charges, fees, and/or market value adjustment of the old annuity outweigh the benefits of the new annuity

Delaware Life Suitability Review

Upon receipt of a *Suitability Questionnaire*, Delaware Life will:

- Review for completeness and to ensure all requested and required information is provided. If any information is missing or requires clarification, the suitability review will be delayed.
- Apply a screening system to the transaction to ensure all responses are within pre-determined parameters
- Identify recommendations that may require additional follow-up

In the event we require additional information from you, we will contact you. We may also contact the applicant directly, but will make every effort to clear any outstanding issues with you first.

What if an application is reviewed and/or declined for suitability issues?

Prior to declining any application for suitability-related issues, Delaware Life will contact you to confirm details we might be questioning and to afford you the opportunity to supplement any information already presented. Once we have all of the facts and our decision is made, it will be final.

What if the applicant wants the annuity even after it was declined for suitability issues?

Our review process allows opportunity for a thorough evaluation of all information. Our decision to decline a case is final.

A Guide to Completing the Suitability Questionnaire

Applicant & Joint-Applicant Information

What if two applications are being written – one for each spouse... is a Delaware Life *Suitability Questionnaire* required with each application – even when most of the information is the same?

We require one completed *Suitability Questionnaire* for each application presented.

What if the applicant is not the annuitant?

Complete the *Suitability Questionnaire* based on the applicant's information. In general, the *Suitability Questionnaire* should be completed based upon the person paying the annuity premium.

What if the applicant is a non-natural person?

- Revocable Trust – complete the *Suitability Questionnaire* based upon the trust grantor's information
- Irrevocable Trust – complete the *Suitability Questionnaire* based upon the trust's information
- Corporation – complete the *Suitability Questionnaire* based upon the corporation's financial information
- UTMA/UGMA – complete the *Suitability Questionnaire* based upon the financial information of the person funding the annuity

Financial Information & Experience

To locate information concerning federal income tax bracket and tax filing status: www.irs.gov

How is net worth calculated?

Net worth equals total assets minus total liabilities (Net Worth = Total Assets – Total Liabilities)

Why is the applicant's primary residence excluded from the net worth calculation?

A home, while valuable, is not liquid and should not be factored into net worth for purposes of annuity suitability. Delaware Life **will not** accept premium from reverse mortgages or home equity loans.

What are some examples of liquid assets, non-liquid assets, and liabilities?

Liquid Assets:

- 401(k) Plan if the applicant is over age 59½, Mutual Funds
- Brokerage Accounts, Money Markets, Stocks, Bonds, Options
- Bank CDs, Checking/Savings Accounts
- Deferred Annuities

Non-liquid Assets:

- Rental or Investment Property
- Immediate Annuities

Liabilities:

- Rental or Investment Property Mortgage
- Credit Card Debt, Loans

Disclosure Statement

Pinnacle MYGASM A Multi-Year Guaranteed Annuity

Issued by Delaware Life Insurance Company, P.O. Box 758581, Topeka KS 66675-8581 (the "Company")

This document reviews important points to think about before you purchase a Pinnacle MYGASM fixed annuity with a Market Value Adjustment (MVA) feature. Pinnacle MYGASM is a single-premium, deferred fixed annuity, which means you buy it with an initial single premium (payment). It is a fixed annuity, which means it earns a specified interest rate during the guaranteed interest rate period. This annuity is tax deferred, which means you don't pay taxes on the interest earnings until the money is paid to you.

You can use an annuity to save money for retirement and to receive retirement income for life. It is not meant to be used to meet short-term financial goals.

If you decide to purchase this annuity, please read the following information carefully, sign, and return the Signature Page of this Disclosure Statement. If you have questions about this annuity, ask your agent, broker or advisor or contact Us at **877-253-2323**.

Note: References to financial advisors, producers, representatives, and agents will all be noted as "financial advisor" in this Disclosure Statement.

THE ANNUITY CONTRACT

How will the value of my annuity grow?

Your annuity earns tax-deferred interest at a guaranteed rate for the period you select, subject to availability. The guaranteed rate depends on the period you choose and on current interest rates. Interest is credited daily. The interest rate is the effective annual interest rate that will be credited when daily interest credits have been compounded for a full year. After your selected period ends, a new interest rate will be declared for each succeeding guaranteed interest rate period. The new interest rate will be greater than or equal to a minimum guaranteed interest rate, which is set at contract issue and effective for the life of your policy. Note that for contracts issued in Delaware and Florida, the guaranteed interest rate period does not automatically renew at the end of the selected term. Please review with your financial advisor to see how this may affect you.

Who are the parties of the Annuity Contract?

Parties of the Contract are Owner(s), Annuitant(s), and Beneficiary(ies). Contract owner(s) designate the annuitant(s) and beneficiary(ies).

Is it important to choose carefully when selecting the parties in my Contract?

Yes. Carefully consider who you select as Owner(s), Annuitant(s), and Beneficiary(ies). These parties are critical in the operation of your annuity and they impact when and to whom death benefits are paid out.

BENEFITS

How can I access money from my annuity?

You may take withdrawals or fully surrender your contract. Additionally, you can receive income (payouts) by electing a Settlement Option. You should consider the effect of surrender charges and MVA when accessing money.

How do I get income (payouts) from my annuity?

Your contract contains several Settlement Options that can be utilized after the first contract year. The Settlement Option payout amount during the first 5 contract years is equal to your contract's Surrender Value at the time of your election; therefore, Surrender Charges and any applicable MVA may be applied when calculating your payout. If one of the Settlement Options below is elected following the fifth contract year, surrender charges and MVA will not be assessed.

Your choices include the following:

- **Life Annuity:** Guarantees income for as long as you live.
- **Life Annuity with Period Certain:** Guarantees income for as long as you live. If you die within the "period certain", it pays income to your beneficiary for the rest of the period.
- **Joint and Last Survivor Annuity:** Guarantees income for as long as you or your joint annuitant (usually a spouse) lives.

What happens when I die?

If you die before we start to pay you income from your annuity, we pay the full Account Value to your beneficiary. If you die after we start paying you income from your annuity, we pay the remaining value in the annuity, if any, to your beneficiary, depending on the type of payout you choose.

In the case of joint owners, the death benefit is paid on the death of the first owner.

FEES, EXPENSES, AND OTHER CHARGES

What happens if I take out some or all of the money from my annuity?

You may withdraw a portion of your money from your annuity without incurring a surrender charge or MVA starting after the first contract anniversary. The free withdrawal amount is the greater of (a) 10% of the contract value as of the most recent contract anniversary, or (b) any annual IRS required minimum distribution applicable to the annuity. Any withdrawals in excess of the free withdrawal amount will be subject to a withdrawal charge.

Refer to the table below for withdrawal and surrender charges by guarantee periods, subject to availability. The charges for your Contract correspond to each contract year, beginning with year one and continuing until the end of the Contract's guarantee period. For example, the charges for a 3-year guarantee period are 7% in year one, 6% in year two, and 5% in year three.

WITHDRAWAL AND SURRENDER CHARGES BY GUARANTEE PERIOD YEAR*

Guaranteed Period Year	1	2	3	4	5	6	7	8	9	10
Withdrawal Charge	7%	6%	5%	4%	3%	2%	1%	1%	1%	0.75%

*Subject to availability

Withdrawals made in excess of the free withdrawal amount may also be subject to a positive or negative MVA based on changes to interest rates. The MVA is equal to the amount withdrawn, less any available Free Withdrawal Amount, times the Market Value Adjustment Factor. An example has also been provided below.

The Market Value Adjustment Factor is: $(I - (J + .25\%)) \times N$. Where:

I = The Guaranteed Interest Rate being credited to the Account Value;

J = The renewal Guaranteed Interest Rate currently offered for a duration equal to Your Guaranteed Interest Rate Period;

N = The number of complete months from the date of surrender or withdrawal to the end of Guaranteed Interest Rate Period divided by 12.

Examples of how Withdrawal and Surrender Charges and MVA are calculated:

These examples use the following assumptions:

Contract issue date: June 1, 2014
Guaranteed Interest Rate Period: 5 Year
Guaranteed Interest Rate: 4%
Withdrawal Date: August 25, 2015

Withdrawal and Surrender Charges

For the examples, we assume the amount withdrawn of \$16,000 is greater than the available free withdrawal amount of \$15,000. Surrender charge will be applied to the excess above the free amount ($\$16,000 - \$15,000 = \$1,000$). This charge is \$60, which is the \$1,000 in excess of the free amount multiplied by 6% (Withdrawal and Surrender Charge for year two that can be found on the chart above). In addition, the \$1,000 that is subject to surrender charges may also be assessed a positive or negative MVA depending on changes to interest rates. Several examples of that calculation assuming interest rates increase or decrease can be found below.

Market Value Adjustment (MVA)

Example 1: Decreasing Interest Rates

Renewal Guaranteed Interest Rate for a 5 Year Period = 3.1% or 0.031

N (number of months remaining in the term) = 45

MVA Factor = $(.04 - (0.031 + 0.0025)) \times (45 / 12) = 0.024375 = 2.4375\%$

$\$1,000 \times 2.4375\% = \24.38

\$24.38 would be added to the amount withdrawn.

Example 2: Increasing Interest Rates

Renewal Guaranteed Interest Rate for a 5 Year Period = 5.0% or 0.05

N (number of months remaining in the term) = 45

MVA Factor = $(.04 - (0.05 + 0.0025)) \times (45 / 12) = -0.04688 = -4.688\%$

$\$1,000 \times -4.688\% = \-46.88

\$46.88 would be deducted from the amount withdrawn.

TAXES

How will payouts and withdrawals from my annuity be taxed?

This annuity is tax deferred, which means you don't pay taxes on the interest earnings until the money is paid to you. When you take payouts or make a withdrawal, you pay ordinary income taxes on the taxable amount, including any interest earned. You may also incur a 10% federal income tax penalty on earnings you withdraw before age 59½. If your state imposes a premium tax, it will be deducted from the money you receive.

You can exchange one tax-deferred annuity for another without paying taxes on the earnings when you make the exchange. Before you do, compare the benefits, features, and costs of the two annuities. You may pay a surrender charge if you make the exchange during the surrender charge period. Also, you may pay a surrender charge if you take withdrawals from the new annuity during the first years you own it.

Does buying an annuity in a retirement plan provide extra tax benefits?

Buying an annuity within an IRA, or other tax-deferred retirement plan doesn't give you any extra tax benefits. Choose your annuity based on its features and benefits as well as its risks and costs, not its tax benefits.

For transfers/rollovers of qualified funds: I intend that this transfer be accomplished as a trustee-to-trustee transfer in a nontaxable manner in accordance with IRS rulings and not constitute actual or constructive receipt by me for federal income tax purposes. I hereby request and direct the transfer of the net proceeds of the account listed on the previous page.

For 1035 exchange of non-qualified funds: I hereby assign and transfer the specified portion of my right, title, and interest in the above Contract ("the Contract") to the Company. I irrevocably waive all rights, claims, and demands under the Contract or specified portion thereof. The purpose of this transfer is to effect a direct nontaxable exchange of contracts pursuant to Section 1035 of the Internal Revenue Code. I understand and agree that the cost basis in the contract issued by the Company shall be determined based on the cost basis information provided by the above-referenced company ("Surrendering Company"). I further understand and agree that the Company assumes no responsibility in obtaining or verifying the cost basis of the new contract issued by it. I acknowledge and agree that if the Company does not receive cost basis information acceptable to it, the cost basis will be recorded by the Company as zero.

6 ACCEPTANCE BY CONTRACT OWNER/PARTICIPANT (continued)

I hereby declare that the Contract is not subject to any assignment, pledge, collateral assignment, or other lien and that no proceedings in bankruptcy or insolvency, voluntary or involuntary, have been instituted by or against me and that I am not under guardianship or any legal disability.

I understand and agree that the Company will request that the Surrendering Company totally or partially surrender the original Contract and that the Company assumes no responsibility for any delay by the Surrendering Company in paying the surrender proceeds or for any changes in the amount. I understand that the proposed transaction may have important tax consequences and/or surrender or withdrawal penalties, and I represent and agree that the Company is furnishing this form and participating in this transaction at my request. I understand and agree that the Company makes no representations concerning my tax treatment under Section 1035 of the Internal Revenue Code or otherwise and that the Company has no responsibility or liability for the validity of this assignment.

A replacement may not be in your best interest, or your decision could be a good one. You should make a careful comparison of the costs and benefits of your existing policy or contract and the proposed policy or contract. One way to do this is to ask the company or agent that sold you your existing policy or contract to provide you with information concerning your existing policy or contract. This may include an illustration of how your existing policy or contract is working now and how it would perform in the future based on certain assumptions. Illustrations should not, however, be used as a sole basis to compare policies or contracts. You should discuss the following with your agent to determine whether replacement or financing your purchase makes sense:

PREMIUMS:

- Are they affordable?
- Could they change?
- You're older—are premiums higher for the proposed new policy?
- How long will you have to pay premiums on the new policy? On the old policy?

POLICY VALUES:

- New policies usually take longer to build cash values and to pay dividends.
- Acquisition costs for the old policy may have been paid; you will incur costs for the new one.
- What surrender charges do the policies have?
- What expense and sales charges will you pay on the new policy?
- Does the new policy provide more insurance coverage?

INSURABILITY:

- If your health has changed since you bought your old policy, the new one could cost you more, or you could be turned down.
- You may need a medical exam for a new policy.
- [Claims on most new policies for up to the first two years can be denied based on inaccurate statements. Suicide limitations may begin anew on the new coverage.]

IF YOU ARE KEEPING THE OLD POLICY AS WELL AS THE NEW POLICY:

- How are premiums for both policies being paid?
- How will the premiums on your existing policy be affected?
- Will a loan be deducted from death benefits?
- What values from the old policy are being used to pay premiums?

IF YOU ARE SURRENDERING AN ANNUITY OR INTEREST SENSITIVE LIFE PRODUCT:

- Will you pay surrender charges on your old contract?
- What are the interest rate guarantees for the new contract?
- Have you compared the contract charges or other policy expenses?

OTHER ISSUES TO CONSIDER FOR ALL TRANSACTIONS:

- What are the tax consequences of buying the new policy?
- Is this a tax-free exchange? (See your tax advisor.)
- Is there a benefit from favorable "grandfathered" treatment of the old policy under the federal tax code?
- Will the existing insurer be willing to modify the old policy?
- How does the quality and financial stability of the new company compare with your existing company?

Generally, sales of insurance products should not be solicited other than in the state where the applicant resides. Delaware Life
Pinnacle MYGASM
A Multi-Year Guaranteed Annuity

Plan for your retirement lifestyle

Issued by Delaware Life Insurance Company

Pinnacle MYGASM

A Multi-Year Guaranteed Fixed Annuity

Guaranteed Interest Rates

Pinnacle MYGASM is a single-premium deferred annuity product that earns a fixed rate of interest, allowing your retirement money to grow on a tax-deferred basis. You can choose from a range of guarantee periods to meet your specific needs, and your interest rate is locked-in for that entire guarantee period.

Protection of Your Principal

Your money goes to work for you immediately, earning a guaranteed rate for the period you select, regardless of what happens to the stock market or interest rates. As long as you hold your contract for the length of the guarantee period, your principal and the interest you earn are guaranteed.

Lifetime Income Options

At the end of your initial guarantee period, you can withdraw your funds without incurring surrender charges, renew your contract into a new guarantee period, or even convert your annuity into a stream of retirement income payments, guaranteed for life.

A simple, guaranteed way to build retirement assets without the principal risk typically associated with stocks, bonds, or mutual funds

Features and Benefits

Tax-Deferred Growth

All your earnings grow 100% tax deferred, until you start taking withdrawals or income payments. In most cases, that will be after retirement, when your tax bracket may be lower. Withdrawals are taxed as ordinary income and if taken prior to 59½, you may have to pay a 10% federal tax penalty.

The Benefits of Tax Deferral

This chart illustrates how tax deferral would affect a hypothetical \$100,000 initial premium, before any withdrawals, during a 20-year period. The chart assumes an annual interest rate of 5%, and a federal income tax rate of 28%. This chart is hypothetical and does not reflect the actual performance of the annuity.

Lifetime Income

Pinnacle MYGASM can provide you with a guaranteed income stream through the annuitization feature, which turns your deferred account into a regular stream of income payments.

You can choose from several different annuity payout options, including payments for your entire lifetime, payments for your entire lifetime including a guaranteed minimum period payable to either you or your beneficiary(ies), or payments over the lifetime of you and a co-annuitant. If annuitization begins following the fifth contract year, no surrender charges or market value adjustment will be applied when calculating your payout.

Penalty-Free Withdrawals

You can also access funds from your Pinnacle MYGASM by making withdrawals. Each contract year beginning in year two (2), you may withdraw up to 10% of the value of your account (as of the previous contract anniversary), without incurring any surrender charges or market value adjustment. Amounts withdrawn in excess of the 10% penalty-free amount will incur a surrender charge and market value adjustment, if applicable. Surrender charges are waived for amounts withdrawn to meet required minimum distributions (RMDs) even if they exceed the penalty-free withdrawal amount. Withdrawals before age 59½ are taxed as ordinary income and may be subject to a 10% federal tax penalty.

Features and Benefits (continued)

Renewal Feature

At the end of your guarantee period, you can renew your annuity for another guarantee period. You can generally continue to renew in any new guarantee period that ends prior to your 95th birthday.

Renewal rates for subsequent guarantee periods will be based on competitive current interest rates at the time of your renewal, and may differ from the initial guaranteed interest rate. There is a 30-day window to select a new guarantee period at that time. If no election is made your annuity will automatically renew for the same guarantee period you had previously selected.

During your 30-day window, you can make withdrawals or surrender your annuity with no surrender charges or market value adjustment.

Death Benefit

Pinnacle MYGASM allows you to designate a beneficiary or beneficiaries. Beneficiaries may choose to receive payouts in either a lump sum or a series of income payments. If you die before you begin receiving annuity income payments, your beneficiary will receive at least the account value (including all the interest you've earned).¹

Spousal Continuation Privileges

If the sole beneficiary is a surviving spouse, they may choose to continue the contract under its current terms, or receive their death benefit proceeds.

¹The death benefit amount is subject to adjustments for applicable charges and taxes.

Features and Benefits (continued)

Market Value Adjustment

If you make a withdrawal or surrender at any time other than the 30-day window prior to the end of a guarantee period, a market value adjustment (MVA) will apply. The MVA reflects changes in interest rates that may occur between the time when the guarantee period began and when the withdrawal or surrender is taken.

The change is measured by comparing the base interest rate credited in your contract with the base interest rates being credited by the company on current sales of the same contract form. If the MVA is applied, an increase in base interest rates will cause a decrease in the value of your contract, and a decrease in base interest rates will cause an increase in the value of your contract.

The MVA does not apply to penalty-free withdrawals, the payment of a death benefit, or at the end of the guarantee period. Please refer to the market value adjustment provision in the contract for a complete description.

Withdrawal and Surrender Costs

If you make a withdrawal or surrender your contract before the end of your current guarantee period, a surrender charge applies to amounts that are greater than the penalty-free withdrawal amount. Each guarantee period has its own surrender charge schedule. Surrender charge percentages decrease during the guarantee period, as shown in the chart below.

If you renew into a new guarantee period, the surrender charges schedule will reset based on the grid below. Withdrawals before age 59½ may be subject to a 10% federal tax penalty. See your financial professional or your legal or tax advisor for complete details.

Withdrawal and Surrender Charges by Guarantee Period Year

The withdrawal and surrender rate depends on how long you own your annuity. The rate schedule is set out below. The withdrawal charge is equal to the applicable rate multiplied by the amount subject to the charge.

Contract Year	1	2	3	4	5	6	7	8	9	10
Charge rate	7%	6%	5%	4%	3%	2%	1%	1%	1%	.75%

2 TAX DISCLOSURE

- According to Internal Revenue Code Section 72(u), if any annuity contract is held by a “non-natural person” such as a trust, and that trust is not holding the contract as an “agent for a natural person,” then:
 - the contract is not treated as an annuity contract for income tax purposes, and
 - income on the contract for each tax year is treated as ordinary income received or accrued by the owner during that tax year.
- The Company will not issue any trust tax returns. Instead it will issue IRS form 1099-R to the trust, reflecting only withdrawals that occurred in the previous tax year.

LICENSED INSURANCE AGENT (THE "AGENT") OF AN ANNUITY CONTRACT IN A RETIREMENT PLAN OR IRA
DISCLOSURE AND AUTHORIZATION**

IRA Owner: _____

DATE: _____ (not later than December 31, 2017)

Insurance Agency: _____

Annuity Product Name: _____

Insurance Company Name: _____

The IRA Owner, on behalf of an individual retirement annuity ("IRA"), as defined in Section 408(a) of the Internal Revenue Code of 1986, as amended (the "Code"), is applying to purchase an annuity contract issued by the Insurance Company (the "Annuity"). The Insurance Company will pay commissions and/or fees, as described below, to an agent, broker, or consultant (including the Agent) in connection with the IRA's purchase of the Annuity.

As used in this document, the use of "you" or "your" refers to the IRA Owner who purchases the Annuity on behalf of the IRA.

Your Agent's Relationship to the Insurance Company

Your Agent is a representative of the Insurance Company. However, your Agent is independent of the Insurance Company and its affiliates. Your Agent can recommend Annuities that are issued by the Insurance Company and annuities issued by other insurance companies. The Insurance Company does not restrict the insurance products that your Agent sells or recommends and does not monitor or supervise your Agent. Your Agent may not make any representations or accept any responsibilities on behalf of the Insurance Company that are not expressly contained in the Annuity. Your Agent may not waive or modify any terms of the Annuity.

Commissions

The commissions your Agent receives for the sale of the Annuity to you are _____% of gross annual premium in the first year and _____% of the contract balance in subsequent years while the Annuity is active.

Annuity Fees and Expenses

Your Annuity includes certain charges imposed by the Insurance Company as the issuer of the Annuity. Such charges may include, among other things, surrender charges, market value adjustments, and rider charges. A description of the charges under the Annuity is as follows:

Conflicts of Interest

Agents experience conflicts of interest because of the compensation they receive and because they can offer only certain products from certain insurance companies. Your Agent will receive more or less compensation depending on the type of annuity product that you purchase. The Agent's compensation for an annuity purchase varies based on specific annuity product features, such as the length of any guarantee period, the annuity's total accumulation value and the annuitant's age when the annuity is issued. Your Agent may also be eligible for non-cash compensation. Your Agent is authorized to act as agent for a limited number of issuing insurance companies and has a limited universe of products to offer. INTRODUCTION
to
MODEL DISCLOSURE AND AUTHORIZATION FORM

This is a model disclosure and authorization form (the “Model Form”) that you may use to assist in meeting the requirements of the Department of Labor’s Prohibited Transaction Exemption 84-24 (“PTE 84-24”) for the period from June 9, 2017 through December 31, 2017 (the “Transition Period”).

DO NOT USE AFTER DECEMBER 31, 2017.

As you may know, the Department of Labor (the “DOL”) has issued a final regulation that redefines the term “investment advice” with respect to agents who sell annuities to plans governed by the Employee Retirement Income Security Act of 1974 (“ERISA”) and individual retirement accounts and annuities (“IRAs”) as defined under Sections 408(a) and (b) of the Internal Revenue Code of 1986. **Starting on June 9, 2017, you will likely act as a fiduciary in connection with the distribution of fixed annuities and fixed index annuities to IRAs.**

The DOL has issued guidance about how to address conflicts of interest during the Transition Period. The DOL states that a fiduciary may rely on the current version of PTE 84-24 with the addition of the Impartial Conduct Standards, which require that the fiduciary agent must:

1. Act in the best interest of the IRA client;
2. Receive no more than reasonable compensation; and
3. Make no misleading statements.

This means that the recommendation of an annuity must be in the best interest of the IRA client at the time it is made. The recommendation must be made with the care, skill, prudence and diligence that a prudent person would use, based on the investment objectives, risk tolerance, financial circumstances and needs of the IRA Owner, without regard to the financial interests of the selling agent or any other party. It also means that the disclosure information provided to the IRA client must not be materially misleading at the time it is provided.

This Model Form is a sample form intended to help you in your efforts to meet the requirements of PTE 84-24 during the Transition Period. If you choose to use this Model Form, you will need to fill in the disclosure portion with all relevant information, in as much detail as possible.

You are responsible for maintaining the final form, signed by the IRA client, in your records. **DO NOT RETURN IT TO THE INSURANCE COMPANY.**

You should contact your own legal and compliance advisors for purposes of determining whether and how to comply with PTE 84-24 or another prohibited transaction exemption during the Transition Period. In the event you intend to comply with PTE 84-24, you should seek guidance from your legal and compliance advisors on what additional information should be included in the disclosure portion of the Model Form.
